# ITS TECH & FOOD Academy

## ITS TECH&FOOD ACADEMY

ITS Tech&Food Academy is a vocational institution specialized in the **agri-food sector**, located in the heart of the **Food Valley** thanks to the **partnerships** between **companies, institutions, schools, universities, training, and research bodies** of the region.

It is a “key player” in the regional and national system of **higher professional training**, as defined by Law no. 99 of July 15, 2022.

It trains the new professionals in the **Agri-Food Industry**.

It offers **post-diploma specialization courses** and it awards a **Specialization Diploma** in **Applied Technologies**, recognized throughout Europe.

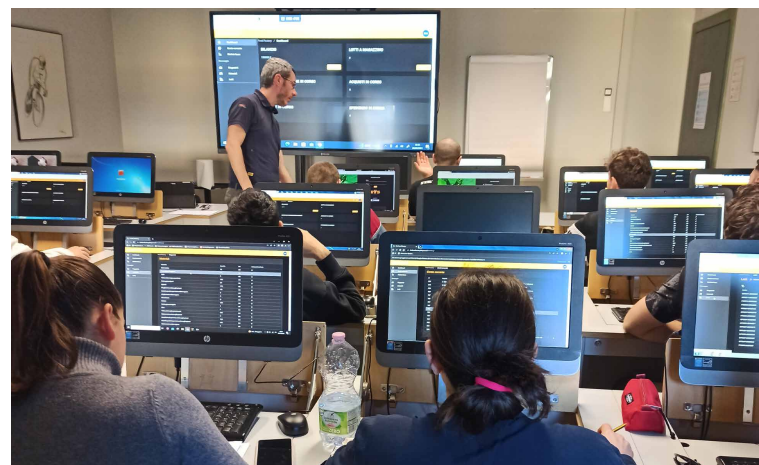

It provides **free two-year courses** with the aim to develop highly specialized technicians, who have **high job prospects** in the local strategic sectors.

PARMA  
BOLOGNA

REGGIO EMILIA  
CESENA

The adopted teaching approach prioritizes:

- Learning in a **laboratory** setting;
- Curricular **internship** activities (stages) in a company, either in Italy or abroad;
- Higher-level **apprenticeship** and research;
- Use of advanced **technologies**.

At least **60% of the teaching** hours are carried out by **experts from the world of work**, together with university professors and school institutions, researchers, and experienced technicians.
